

Single Stream Recycling Is Here! On May 13th the Moultonborough Waste Management Facility transforms from a full sorting recycling facility to a single stream recycling facility. So what does that mean for you? No more need to have multiple containers in your home to keep your recyclables separate and no more running from spot to spot to dispose of your recyclable items separately at the Waste Management Facility! All recyclables - paper, cardboard, glass, aluminum and steel cans, plastic, etc. can all be placed in one container or paper bag and tossed away in the designated container! The only other container you'll need is your regular one for your household trash and garbage!

For more details about this exciting change please visit the facility website at <https://moultonboroughnh.gov> or talk with a facility attendant.

Please see the back of this flyer for details on the dos and don'ts of single stream recycling!

Thank you!

Moultonborough Select Board

Single Stream Recycling Guidelines

Recycling Chart

Container preparation

- Remove all plastic bags.
- Remove any non-acceptable items.
- Corrugated cardboard should be broken down so it fits inside the container without jamming, so the cart will empty completely.

- All containers (jars, bottles, cartons, etc.) must be rinsed and free of all contaminants.
- Remove and discard all corks, tops, rings, metal bottleneck wraps, and unacceptable items.
- Flatten containers whenever possible.
